Savlon®

Antiseptic Cream

Cetrimide, Chlorhexidine Digluconate

Cleanses and helps prevent infection in first aid and minor skin problems.

**Do not use** if you are allergic to any of the ingredients, especially Chlorhexidine as it may cause allergic reactions. Cetostearyl alcohol may cause local skin reactions. Parahydroxybenzoates may cause allergic reactions (possibly delayed).

**Directions:** With clean hands gently apply cream to the affected area. Do not use on the eyes or ears.

**STOP using and seek medical help immediately** if you have any of the following very rare allergic reactions: difficulty breathing, swelling of the face, tongue or throat, dizziness, skin irritation or rash. If you experience these or other side effects, stop using and seek medical advice.

**Keep out of the sight and reach of children.** Do not store above 25 °C.

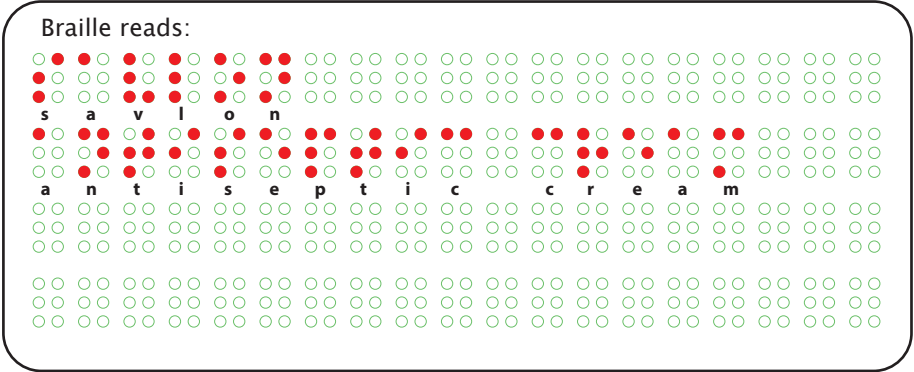

Use within 12 months of opening. Do not use after the expiry date shown on the end of the tube.
