Oral Solution**

**+** Soothes and relieves chesty coughs

**200ml e**

**About this product**  
Numark Mucus Cough Guaifenesin is taken to relieve chesty coughs.

**Ingredients**  
Active ingredient: Guaifenesin 100mg per 5ml. Also contains: Glucose, Methylhydroxybenzoate E218, Citric Acid E330, Sodium Citrate E331, Sodium Saccharin E954, Carmoisine Red E122, Caramel E150c, Cherry Flavour, Ethanol and Purified Water.

**Dosage**  
Liquid for oral use. **Adults, the elderly and children over 12 years of age:** Take 5 to 10ml every two or three hours. Not more than 4 doses should be given in any 24 hours. Do not take with any other cough and cold medicines.  
**Not recommended for children under 12 years.**  
**Wipe the neck of the bottle and replace the cap securely without over tightening. Do not take more medicine than the label tells you to.**  
Stop use and ask a healthcare professional if your cough lasts for more than 5 days, comes back, or is accompanied by a fever, rash or persistent headache.

**Important**  
**Do not use:**  
• If you are allergic to any of the ingredients  
**Consult your doctor before use:**  
• If you are taking any prescribed medicines or undergoing medical tests  
• If you suffer from a chronic cough  
• If you have asthma or are suffering from acute asthma attack  
• If you have an intolerance to some sugars  
Contains 4.4g of glucose per 10ml dose. This should be taken into account in patients with diabetes mellitus. This medicinal product contains 2.4 vol% ethanol (alcohol), i.e. up to 191mg per 10ml dose, equivalent to 4.9ml of beer or 2ml of wine per 10ml dose. Harmful for those suffering from alcoholism. To be taken into account in pregnant or breast-feeding women, children and high-risk groups such as patients with liver disease, or epilepsy.  
Guaifenesin may increase the rate of absorption of paracetamol.  
Contains E122 - may cause allergic reactions.  
Contains E218 - may cause allergic reactions (possibly delayed).  
**Side effects:**  
May cause gastro-intestinal discomfort or nausea and vomiting in large doses Hypersensitivity reactions may occur. If you notice these or any other side effects, stop using the product and consult your doctor or pharmacist.  
**Reporting of side effects:**  
If you get any side effects, talk to your doctor, pharmacist or nurse. This includes any possible side effects not listed in this label. You can also report side effects directly via the Yellow Card Scheme at: [www.mhra.gov.uk/yellowcard](http://www.mhra.gov.uk/yellowcard). By reporting side effects you can help provide more information on the safety of medicines.  
**Keep out of the sight and reach of children.** Do not store above 25 °C.
