Numark Chesty Cough

About this product: Numark Chesty Cough Compound of Glycerin, Lemon and Ipecacuanha is taken for the relief of coughs.

Dosage: Liquid for oral use.

Adults, the elderly and children over 12 years of age:
Take 5 to 10ml, 3 to 4 times daily.

Not more than 4 doses should be taken in any 24 hours. Do not take more medicine than the label tells you to. If you accidentally take too much contact your nearest hospital immediately. Do not take with any other cough and cold medicines.

Not recommended for children under 12 years.

Warnings: Do not use if: you are allergic to any of the ingredients, you are in shock, are at risk of seizure, have blood circulation problems, have kidney, liver or heart problems, are pregnant or breast-feeding unless on the advice of your doctor. If you are taking other medicines, check with your doctor or pharmacist before taking this medicine.

Ipecacuanha Liquid Extract may interact with antiarrhythmic drugs. If you have been told by your doctor that you have an intolerance to some sugars, contact your doctor before using this medicinal product. Contains 3.2g of sucrose per 10ml dose. This should be taken into account in patients with diabetes mellitus.

This medicinal product also contains ethanol, E123, E214, E216 and E218. See further warnings.
